

2012 ELCA Local Minimester Student Registration

Dates: March 28-30, 2012

Financial Form

Student's Name: _____ Grade: _____

Minimester extends curriculum beyond the classroom to provide our ELCA families with a cultural, educational and ministerial experience both locally and around the world. Each High school student is required to complete at least 3 days of minimester outreach as a part of their classroom curriculum training.

Local Minimester projects are a great way for our students to get out into the community and serve in a number of ways. Last year, we went to places like, The Atlanta Union Mission, Helping in His Name Food Bank, The pregnancy resource center, The Benton House, The Fuller Center and ten other destinations. Your student will be challenged and changed because of what they will experience by serving the community.

_____Plans to stay here and be involved in local minimester projects. The cost for local minimester is \$50.00 per person. Please charge my account in November in the amount of \$50.00 for the local minimester opportunities.

What is this money used for?

We are responsible to cover our own fuel cost for all busses going out on Local Minimester. Also, we will use a portion of this money to buy building supplies and other materials needed to complete our projects. We will buy food, drinks, school supplies, small toys and anything else needed to reach out to those in need in our community.
