Walk Two Moons

Journal Project

As you read the book, include a journal entry of 1-2 slides each time Sal stops in a new state during her journey (see the list of states below). The idea is to take on the persona of Sal by writing these in a first person point of view. (If she makes more than one stop in a state, simply discuss each stop in your entry. If Sal and her grandparents do not explore sights in a certain state, you may wish to devote your entry entirely to comments about the plot, characters, and themes of the novel.)

States: Illinois, Wisconsin, Minnesota, South Dakota, Wyoming, Montana, and Idaho

Google Slides Requirements

First, your project should have a cover sheet that includes the title of the book and the author's name. There should be at least 3 slides for each state that include the following:

- ★ Journal Entries: Record the date of each entry and the “high points” of Sal’s visit to the state (brief listing of sights, emotions, new friends, etc.).
Font size should not exceed 18 point
- ★ Reflections: Write *one paragraph* that addresses the following questions (along with anything else about which you would like to write):
 - What have you discovered about Sal?
 - What have you discovered about Phoebe?
 - Have you found any similarities between Sal’s story and Phoebe’s?
 - Were you able to relate personally to any of the incidents which took place in this state? (personal reflection)
 - Have you visited this state? If so, what did you see and do? (personal reflection)

****Please note: The actual questions should not be included in the paragraph. You are simply answering them in paragraph form.**

- ★ Images: Include at least 3 images that capture the events of Sal’s visit.

Please include a caption for each image.
